

Henry Mwangi

About Me

I am an IT professional with experience in various technical roles, including IT support, design, software development and web development. With skills in programming and web development include delivering full-code solutions using technologies listed in my skills list. I have a strong aptitude for solving complex technical challenges. With all my experience, I have developed a deep understanding of the work environment and remain dedicated to delivering high-quality results that meet industry standards and organizational goals.

Work Experience

Voting Clerk

2022

IEBC | Nairobi

Having worked as a voting clerk, I've developed a keen eye for detail and a strong sense of responsibility when it comes to ensuring accuracy and fairness. My experience with tasks like managing voter registration, administering ballots, and upholding the integrity of the electoral process has sharpened my communication, problem-solving, and conflict resolution skills. I'm passionate about democracy and civic engagement, and I believe these experiences have equipped me to be an effective and reliable member of any team or organization.

IT Support – Industrial Attachment

May – July 2023

KTDA | Makomboki Tea Factory

Provided on-site IT support at Makomboki Tea Factory, ensuring optimal functionality of computer systems and networks. Installed and configured hardware and software, proactively diagnosed and resolved diverse technical issues, and effectively trained end-users on systems and procedures. Maintained comprehensive documentation of support tickets, contributing to the smooth and efficient operation of the factory's technological infrastructure.

Designer

January – May 2024

Write The Docs Kenya

Collaborating as a volunteer designer for Write the Docs Kenya, contributing to knowledge-sharing and community development within the technical documentation field. Designing engaging visual materials, including presentations, social media posters, and educational resources to enhance the clarity and accessibility of technical documentation. Applying design principles to promote user-friendly interfaces and ensure a positive learning experience for the target audience.

ICT – Intern

CARITAS - Nairobi

June 2024 – Current

As an ICT Intern, I am responsible for facilitating system migration, which includes data collection, cleaning, and preparing data for smooth transitions. Additionally, I provided support for the legacy system, ensuring operational continuity while assisting in the adaptation to new technologies. This role allowed me to enhance both technical and problem-solving skills in a dynamic IT environment.
